About Self-Help Enterprises

Through our programs, staff works with cities, counties and residents to help meet the needs of our participants and the communities they call home.

Household Water Well

The Household Water Well Program combines a variety of funding sources to provide low-interest loans/grants to qualified homeowners for the repair or replacement of existing private water wells and/or pumps, connection to a public water system, or for State regulated Small Water Systems.

Financing is also available to homeowners who have incurred unfavorable debt, such as high interest rate loans and credit cards as a result of drilling a well.

*****Due to the varying requirements for each program, we encourage all those in need to apply so that we may determine what funding you may qualify for.

The Program assists those who:

- Reside in rural areas of Fresno, Kern, Kings, Madera, Mariposa, Merced, Stanislaus, or Tulare Counties
- Own either owner-occupied or tenant-occupied housing units
- Need assistance with existing private water wells, with State regulated Small Water Systems, or with connecting to a public water system (**No agricultural or commercial water wells)
- Meet the income eligibility requirements for the applicable funding source

Financing:

- The loan/grant amounts for private water wells or connecting to a public water system is up to $60,000. Up to $100,000 is available for Small Water Systems
- Loan terms range from 0—3.5% interest for a term of up to 30 years
- Amortized payment loans require a minimum monthly payment of $50
- Grants are provided on a limited basis to those meeting specific grant criteria
