## Self-Help designated as Neighborworks Homeownership Center

March 20, 2017

By: The Porterville Recorder Staff

VISALIA — Self-Help Enterprises will celebrate its designation as a NeighborWorks Homeownership Center from 4-6 p.m. on Thursday, March 30.

The designation assists Self-Help Enterprises with resources and coordination essential for delivering comprehensive, high-quality homeownership services and expanding homeownership opportunities in the San Joaquin Valley.

The celebration event will include guest speakers and information about Self-Help Enterprises' homeownership and housing programs, food and refreshments, a fire truck with a local fire station providing home fire safety information, drawing for a 32-inch TV and \$100 Lowe's Gift card, a bounce house for kids, and resource booths featuring community partners — Tulare County Association of Realtors, Family HealthCare Network, Grid Alternatives, Proteus, and CSET.

As the Valley's only Homeownership Center, Self-Help Enterprises, a HUD-certified counseling agency, works with families to turn the dream of homeownership into a reality through the Gateway: Your Path to Homeownership program. Serving as a "one-stop" shop for prospective homebuyers, Self-Help Enterprises' homeownership advocates walk individuals and families through the different types of mortgage rates, the effect credit scores have on being approved for a loan, how much down payment is needed for purchase, and how much home is affordable. A tailored action plan is then developed to assist prospective homebuyers in achieving their financial homeownership goals.

Individuals and families also participate in an in-person or online homeownership education class, available in English and Spanish. The homeownership education class covers key topics including:

- >Importance of Credit
- >The Mortgage Process
- >Working with a Realtor
- >The Purchase Process
- >Mortgage and Down Payment Assistance Programs
- >Affordable Housing Opportunities

Homebuyers who take this class have a better understanding of the process, ask smarter questions, and make better informed decisions.

Self-Help Enterprises also partners with local municipal governments, realtors and mortgage lenders in an effort to provide a range of homeownership opportunities for families residing in Fresno, Kern, Kings, Madera, Mariposa, Merced, Stanislaus and Tulare counties.

Self-Help Enterprises' housing programs include:

- >First-Time Homebuyer: Resources and down payment assistance for families looking to become homeowners through traditional avenues.

>Self-Help Housing: Eight to twelve families are grouped together and help each other build their houses with skilled onsite supervision and guidance of Self-Help Enterprises' construction staff. "Sweat equity" serves as the down payment and monthly mortgage payment is based on the household's income.

>Manufactured Housing: Assistance to eligible homebuyers for purchase of a manufactured housing unit.

>Housing Rehabilitation: Funding assistance to make important health and safety repairs to a home.

Because the programs provide affordable and stable low-interest loans for homebuyers, sustainable homeownership has become a reality for many underserved families in the San Joaquin Valley who may not afford a home otherwise.

To participate in the Gateway program, prospective homebuyers can contact Self-Help Enterprises via phone at 651-1000 or via email at [gateway@selfhelpenterprises.org](mailto:gateway@selfhelpenterprises.org). An initial counseling appointment will be scheduled and a \$50 fee will reserve the appointment. The fee covers a credit report and a portion of the homeownership education class fee. Upon completing an intake form, providing requested documents, and attending the counseling appointment, homebuyers will be enrolled in the homeownership education class.
